February Newsletter

New Student

Carly

Things you learn by being involved in music & sports:

- Team work
- Practice techniques
- How to achieve goals
- Express emotions in a positive way
- Performing in front of an audience
- The value of hard work
- Persistence
- Taking constructive criticism
- Confidence

February's Theme: Sports

Super Bowl season is here! It is the perfect time to bring football and some of our other favorite sports into the studio. We're going to have a ball!

Music is a huge part of your life, not just because you take lessons, but because you are surrounded by it daily. You hear it while out shopping, in the car, in restaurants, in commercials/TV shows/movies, in the elevator, when you are on hold on the phone, at weddings and funerals, in church, at parties, in school, and at sporting events. Obviously, music is something that is very important to us. It is a universal language and one that we use for expressing a wide variety of emotions.

Sports are also incredibly popular. Most of my students are involved in at least one sport. So why not combine the two? Sports and music have been going together for ages. Think of the half-time show at the Super Bowl. It has become just as famous as the event itself. The Olympic Games Opening and Closing ceremonies, the World Cup, and NBA and NHL All-Star games also feature musical performances.

Why do sports and music go together so well? Because both are rooted in life, celebration, expression, and entertainment. I hope to bring all of those things to the studio this month to supercharge everyone's excitement for learning to play the piano and to sing!

If you need your piano tuned or are looking to buy a piano, I highly recommend calling **Joe D'Alessandro**.

Here are some highlights from last month's theme: **Road Trip USA.**

We visited the Wild West, New York, Washington D.C., and New Orleans.
